| September 30,<br>2019 | Danish's Capital A/c Dr<br>To Danish's Executor's A/c<br>(Being amount due to Danish transferred to his executor's<br>account)                                       |     | 5,35,400         | 5,35,400         |

Working Notes:-

$$\begin{aligned}\text{Sales} &= 2,00,000 + 20\% \text{ of } 2,00,000 \\ &= 2,00,000 + 40,000\end{aligned}$$
$$\text{Profit \%} = 10\% - 1\% = 9\%$$

Danish's Share of Profit = ₹ 2,40,000 X 9/100 X 5/10 X 6/12 = ₹ 5,400

**Working Note:-** Total Capital of the firm =  $2,10,000 \times \frac{8}{3}$

$$= 5,60,000$$

Gautam's capital in the firm =  $5,60,000 \times \frac{3}{8}$

$$= 2,10,000$$

Yashica's capital in the firm =  $5,60,000 \times \frac{2}{8}$

$$= 1,40,000$$

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                         |                           |  |       | [1]   |      |            |          |    |                                                           |                     |                           |     |                            |                    |                      |      |                |                         |                     |   |    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |     |
| 31 | <p><b>PMT :-</b> The PMT function calculates the periodic payment for an annuity assuming equal payments and a constant rate of interest.</p> <p>The syntax of PMT function is as follows:<br/> <b>= PMT (rate, nper, pv, [fv], [type])</b></p> <p>where Rate is the interest rate per period,<br/> Nper is the number of periods,<br/> Pv is the present value or the amount the future payments are worth presently,<br/> future value or cash balance that after the last payment is made (a future value of zero when we omit this optional argument)</p> <p>Type is the value 0 for payments made at the end of the period or the value 1 for payments made at the beginning of the period. The PMT function is often used to calculate the payment for mortgage loans that have a fixed rate of interest</p> | [4] |
| 32 | <p>A format change, such as background cell shading or font colour that is applied to a cell when a specified condition for the data in the cell is true. Conditional formatting is often applied to worksheets to find:</p> <ol style="list-style-type: none"> <li>Data that is above or below a certain value. Duplicate data values.</li> <li>Cells containing specific text. Data that is above or below average.</li> <li>Data that falls in the top ten or bottom ten values.</li> </ol> <p>Benefits of using conditional formatting:</p> <ol style="list-style-type: none"> <li>Helps in answering questions which are important for taking decisions.</li> <li>Guides with help of using visuals.</li> <li>Helps in understanding distribution and variation of critical data.</li> </ol>                  | [6] |
